

**March 14, 2020**

**To Our Valued Customers,**

**Our priority is the health and safety of our employees, customers, our suppliers and the communities in which we operate. We recognize our role and responsibilities are to prioritize the health and well-being of both our employees and our customers, while supporting local health officials and government as they work to contain the virus.**

**At each of our stores, we will continue to offer our products and services, in a way that is fast, simple and friendly, but you may experience a slightly different service experience as our employees take precautionary steps for prevention of the exposure and the spread of the virus.**

**Our team has increased the cleaning and sanitizing of our stores and fuel pumps, as well as maintaining increased awareness of personal hygiene and social distancing. We will continue our strict adherence to food safety standards and follow our established best practices.**

**During this public health emergency, prevention is a priority. As this situation is continually changing, we will continue to monitor the needs and implement additional measures as needed in support of the containment of this virus.**

**We are appreciative of our customers for their continued patronage and your understanding as we continue to review and make changes in response to appropriate precautions recommended by the CDC and local health agencies.**

**Cory Jackson  
President, Jacksons Food Stores**
